1000+ Riddles with Answers, Edited by Melkisedeck Leon Shine

A sponge! ? It's full of holes, but it still holds water like a champ! ??

Explanation: A sponge is a household item that has many tiny holes all over it, yet it has the amazing ability to absorb and retain water. Despite its holey appearance, it never fails to do its job and keep the water locked in. Just like a little water-holding hero! ????
