

What comes down but never goes up?

By Melkisedeck Leon Shine · July 3, 2023

1000+ Riddles with Answers, Edited by Melkisedeck Leon Shine

Rain ?

Explanation: Rain always falls from the sky, but it never goes back up! Just like a clumsy person who trips and falls, rain can't resist gravity's pull. So next time you're feeling down, just remember that even rain has to deal with gravity's nonsense too! ??
