Quick Answer: Trouble! ?

Explanation: Getting into trouble is often effortless and can happen in the blink of an eye. However, finding a way out can be quite challenging and may require a lot of effort and clever thinking. It's like stepping into a sticky situation and struggling to break free from its grasp. Just like trying to untangle yourself from a messy situation, getting out of trouble can be quite the adventure! So, be careful and avoid getting into trouble in the first place! ???
