Q: What do you call a boomerang that doesn't come back? A: A stick! ???

Explanation: You see, a boomerang is known for its unique ability to return to the person who threw it. But if it doesn't come back, well, it's just a plain old stick!

No fancy aerodynamics or magical powers. Just a simple stick that you can use for other things, like playing fetch with a dog or pretending to be a wizard with a wand.

So, next time you encounter a boomerang that refuses to come back, just remember, it's just a stick keeping its distance from the boomerang club! ???
