Answer: Snow!

Explanation: ? What often falls in winter, but never gets hurt? ? Snow!

? Snow is a mischievous little thing that loves to fall from the sky during winter, covering everything with a fluffy white blanket. It arrives with a graceful dance and lands so gently that it never gets hurt! Whether it falls on the ground or lands on your head, snow remains resilient and always bounces back, ready to bring joy and laughter to the world. So, go out and play in the snow, because it's the only thing that can fall from the sky without needing a band-aid! ?
