Fostering Empathy in Children: A Developmental Approach to Emotional Intelligence

The development of emotional intelligence (EQ) in children is paramount for their social-emotional well-being and future success. A cornerstone of EQ is empathy, defined as the capacity to understand and share the feelings of another. This article explores fifteen evidence-based strategies for parents to cultivate empathy in their children, leveraging theoretical frameworks in developmental psychology and social-emotional learning.

Reader Pool: What additional strategies, based on your experience or knowledge, could enhance the effectiveness of fostering empathy in children?
